VINTAGE

Demanding and challenging vintage due to long dry periods and high summer temperatures. The year began with low rainfall. Despite a wetter than usual March, the first quarter of 2022 recorded a water deficit. Spring was unstable, with alternating hot and cool days. After an early start to the summer, the temperatures reached their highest levels in July, with heatwaves exceeding 40°C and tropical nights. This situation led to vegetative stoppages due to lack of water in some vineyards, bringing forward the harvest to 1 September and lower overall yields. The harvest was optimal due to the lack of humidity, with very healthy grapes of excellent concentration.

TASTING NOTES

Exuberant and full on the nose with overflowing fruit, hints of cocoa and mint. Meaty and round on the palate, with creamy and fluid tannins.

AGEING

Bottled in April 2024 after 16 months of ageing in foudres and French oak barrels of different ages.
